WASTE MINIMIZATION/POLLUTION PREVENTION – Reporting Requirements

Code of Maryland Regulations (COMAR) 26.13.03.06B(1)(d)(vi) requires that the biennial report include a description of efforts undertaken during the reporting year to reduce the volume and toxicity of waste generated. This requirement is satisfied by entering the appropriate waste minimization code from the report instructions in Item G of the Waste Generation and Management Form (GM Form).

SITE IDENTIFICATION FORM – Sections not applicable in Maryland

- Item 10D, “Eligible Academic Entities with Laboratories”, is not applicable, since Maryland has not adopted Subpart K of Part 262, Title 40 of the Code of Federal Regulations (40 CFR Part 262, Subpart K).
- Item 12, “Notification of Hazardous Secondary Material (HSM) Activity” – the “No” box should be checked, and “Addendum to the Site Identification Form: Notification of Hazardous Secondary Material Activity” should **not** be completed. Maryland has not adopted the regulations cited in Item 12.
